

## Memorandum

To: Cosmetologists, Estheticians, Salon Owners, Schools and Other Interested Parties  
From: Kris Chiles, Section Administrator  
Date: February 14, 2005

## SANITATION AND SAFETY REGULATIONS

Effective **February 12, 2005**, the following Regulations have changed:

- 172 NAC 34 - Sanitation and Safety Relating to Nail Technology Services (Gray Cover)
- 172 NAC 43 - Sanitation and Safety Relating to Cosmetology and Esthetics Services (Lavender Cover)

### REMINDERS

1. You must follow these rules and you will be inspected to assure that you are in compliance.
2. The regulations must be posted where the clients, employees and students can see them. Remove the previous rules that are now posted and put these up instead.
3. Cosmetologists and students performing Nail Technology services must follow the Nail Technology Sanitation and Safety Regulations (Chapter 34)
4. Schools will be sent a supply under separate cover for the students, instructors, posting in all classrooms (including the clinic floor) and for the library.
5. The following CAN NOT be in your salon:

- a. Sable or fabric neck dusters or brushes (cosmetic brushes are acceptable).
- b. Styptic pencils.
- c. Cabinet fumigants.
- d. Smoking on the clinic floor, or any area where salon products and/or chemical supplies are used or stored.
- e. Consuming food in any area where cosmetology or esthetics are being taught or performed, except that clients may be allowed to consume food.
- f. Storing food in the same area where chemical supplies are used or stored.
- g. Using, consuming, serving, or in any manner possessing or distributing intoxicating beverages or controlled substances upon its premises during the hours the establishment is open to the public, or students/apprentices and/or any services are being performed.
- h. Animals, including pets. However, animals used as guides for visually impaired or hearing-impaired persons, or service dogs for physically disabled and fish in covered aquariums are allowed in the salon.
